Child Protection Policy

Our key concerns:

Healthy environment and healthy experience creates a healthy student

No child can learn effectively and reach their potential unless they feel secure.

The key objectives:

- to provide a caring , supportive and safe environment to our students
- to promote the social, physical , emotional and moral development of each and every child
- to provide a curriculum and ethos which promotes self-esteem, confidence and independence.

The aims:

1. To ensure that all students know that they will be listened to and get their problems and concerns solved.
2. To increase the awareness of all students, teachers and staff to identify children in need and possible cases of abuses.
3. To ensure the safety, security and welfare of students within the school facility and on school buses by providing effective supervisors.
4. To ensure that the school and governing body practise safe recruitment.
5. To avoid corporal punishment or any form of child abuse.
6. To display evacuation plan in all classrooms, hallways and offices. Assembly points are allocated for students and staff in case of emergencies.
7. To deal appropriately with every suspicion or complaint.
8. To deal with bullying by having an anti bullying team inside the school.
